

Portfolio Private Health Forum 2019 program

07:50-08:25 Registration

Section I.: A trial for private health providers - Who will remain in the race and how?

An increasing number of private health providers are reaching the critical size and are becoming potential acquisition targets. Meanwhile, labour shortage and higher labour costs, as well as a series of price hikes, pose a challenge to market players among increasing competition. But how do Hungarian processes align with regional and European trends? The biggest players in the local and regional markets will paint a precise picture on the above topics.

08:25 - 08:30 Opening Speech

Speaker:

Gabriella Balogh, Board Member, Net Média Zrt. (Portfolio)

08:30 - 08:45 Expansion of a private health provider in the region

György Leitner, CEO, Affidea Hungary

Dr. Kornél Papik, Managing Director, Dr. Rose Magánkórház

10:30 - 11:00 Coffee break

Section II.: Who should pay the bill? - Financing dilemmas in Hungarian healthcare

We could spend all the money in the world on healthcare, but even then the question remains: who will pay for it? The private healthcare spending of Hungarian households is outstanding in international comparison. Is this all right? How do others do it? How should financing challenges be met and what role should the state play? What incentives could the government provide in order to channel private funds to official routes? We will also present unconventional health insurance profiles as we look at who benefits from health insurance.

11:00 - 11:15 Successful healthcare financing models - the example of Israel

Speaker:

Yaron Savoray, Director of McKinsey Center for Government Europe, McKinsey & Company, Inc. Israel

11:15 - 11:30 Expensive healthcare - How to finance the latest therapies
