

Private Health Forum 2018 program

8:00- 8:30 Registration

Section I. Hungary's private healthcare sector in the Central European Region

What are the ongoing processes in the developed Western European private health market, and what can we expect in the CEE region? Demand for private health providers in Hungary is growing, while the market is increasingly consolidated. Meanwhile, the lack of qualified workers affects all providers, not just state-run institutions. To what degree does this mess up the calculations of owners? What will the latest government plans mean for private providers? And how are public health institutions affected? Has the state-run system become less overburdened?

08:25 - 08:30 Opening speech: Zoltán Bán, Chief Executive, Net Média Zrt. (Portfolio)

08:30 - 08:55 The network of European healthcare providers

Speaker:

Dr Attila Végh, korábbi CEO és elnök, Capio and Penta Hospitals International

08:55 - 09:15 Public health needs, private providers and profitability

Speaker:

Dr. Péter Pál Varga, Founder & Managing Director, spine surgeon, Buda Health Center

09:15 - 09:30 How much is it? - Evaluating healthcare providers in terms of their financial performance

Speaker:

Bertalan Jászkuti, Founder & Managing Director, Heal Partners

09:30 - 10:30 Roundtable of proprietors and CEOs

Moderator: **Csaba Lantos**, energiaügyi miniszter, Energiaügyi Minisztérium

Conversation participants:

Dr. Judit Fendler, Chancellor, Szegedi Tudományegyetem

Andrea Ficzer, főigazgató, Uzsoki Kórház

Dr. András Kirschner, tulajdonos - ügyvezető igazgató, Swiss Medical Group

Antal Kovács, Managing Director, Da Vinci Private Clinic

György Leitner, CEO, Affidea Hungary

10:30 - 11:00 Coffee Break

Section II. Best practices in healthcare - What should the new Hungarian model be like?

Policy issues and questions all in one place. What can domestic healthcare leaders learn from the examples of other countries as far as the transformation of the healthcare system is concerned? What options are available? And why is healthcare important in terms of competitiveness? Meanwhile, we hear more and more about the overhauling of the financing system as well, so we will examine the options Hungary has in this regard, and take a look at what role insurance packages play at present or could play in the future.

11:00 - 11:15 Introducing value-based healthcare in the CEE region

Speaker:

Ákos Újlaki, Partner, Boston Consulting Group

11:15 - 11:30 Proposals to improve competitiveness in Hungarian healthcare

Speaker:

Gergely Baksay, Director, Magyar Nemzeti Bank

11:30 - 11:45 How to orchestrate the transformation of Hungarian healthcare?

Speaker:

Margó Kohanecz, Director, Healthcare and Life Sciences, KPMG

11:45 - 12:40 Panel discussion: How to finance healthcare in Hungary?

Moderator: **János Bartók**, ügyvezető, UNION-Érted Ellátásszervező Kft.
