

Energy Investment Forum 2020 program

A konferencia online kerül megrendezésre, a közvetítés pedig a helyszínről fog történni profi kamera stáb és technika segítségével a maximális résztvevői élmény érdekében.

Section I: No other way but decarbonisation

The coronavirus pandemic as a great opportunity for humankind
Energy transition in the fast lane - What are Europe and Hungary planning?
European Green Deal - Sustainable growth strategy in Europe
Carbon neutral future - What will meeting commitments cost?

Moderator: Viktor Nagy, Senior Analyst, Portfolio

08:55 - 09:00 Opening Speech

Speaker:

Zoltán Bán, CEO, Net Média (Portfolio Csoport)

09:00 - 09:30 Towards a sustainable recovery

Speaker:

László Varró, Chief economist, IEA

09:30 - 09:50 Hungary's energy and climate strategy in a changing world

Speaker:

Andrea Beatrix Kádár, Deputy State Secretary, Secretary of State for Energy Affairs, Ministry for Innovation and Technology

09:50 - 10:10 Artificial intelligence in the energy industry - The role of smart grids in the spread of renewable energy

Speaker:

József Béres, hálózatokért felelős igazgatósági tag, E.ON Hungária Csoport

10:10 - 10:30 Security of supply, competitiveness, affordability - The cost of decarbonisation

Speaker:

Géza Losonczy, Igazgató, Energetikai & közüzemi tanácsadás vezetője, KPMG Tanácsadó Kft.

10:30 - 10:50 Coffee break

Section II: A change of direction: Traditional energy companies face historical challenges

The energy industry in a storm of transition – Changing social expectations and customer preferences, accelerating technological development

Focus increasingly shifting from fossil fuels to renewables – Where will the place of oil and natural gas be in this?

Profitable growth and value creation in a low carbon emission economy

Strategy creation in fast motion – Proactivity race in the energy sector

Moderator: Tamás Pletser CFA, olaj- és gázipar elemző, Erste

10:50 - 11:10 Lessons learned from the COVID crisis and expectations for 2021

Speaker:

Gergely Szabó, Regional Chairman, MET Central Europe

11:10 - 11:30 Sustainability, ESG, decarbonisation - New challenges, new opportunities

Speaker:

ifj. Attila Chikán, CEO, ALTEO Group

11:30 - 11:50 Essential businesses under the emergency rule of law - Conclusions from the first wave

Speaker:

Dr. Péter Zalai, Lawyer, Réti, Várszegi és Társai Ügyvédi Iroda PwC Legal

11:50 - 12:40 Energy companies on new paths in a changing world

Conversation participants:

ifj. Attila Chikán, CEO, ALTEO Group

Viktor Sverla, Head of Group Strategy, MOL Group

Eszter Szekeres, CEO, MET Hungary Ltd., MET Central Europe

12:40 - 13:40 Lunch break

Section III: Green, sustainable, renewable - The future of energy in Europe and Hungary

Are renewables about to boom? Low interest rates, government subsidies, increasingly cheap technologies

Integration of renewables – Focusing on grid development

Renewables and hectic power generation – Security of supply and energy storage are key issues

Is it time for hydrogen? – The missing link in the decarbonisation process

Moderator: Bernadett Papp, szenior piaci elemző, Vertis Environmental Finance

13:40 - 14:00 The Rapid Advances in Renewable Energy

Speaker:

Stefan Reichelstein, Director, Professor, Mannheim Institute for Sustainable Energy Studies, Stanford GSB

14:00 - 14:20 The role of green hydrogen in the energy transition

Speaker:

Jorgo Chatzimarkakis, Secretary General, Hydrogen Europe

14:20 - 14:40 Integrating renewable generators with a view to security of supply

Speaker:

Zsolt Bertalan, csoportszintű technológiai innovációs igazgató, MVM Zrt.

14:40 - 15:40 Challenges and opportunities in renewables

Conversation participants:

Prof. Dr. Attila Aszódi, Professor, Budapest University of Technology and Economics Institute of Nuclear Techniques

Zsolt Bertalan, csoportszintű technológiai innovációs igazgató, MVM Zrt.

Ákos Dervalics, Country Manager, InnoEnergy HUB Hungary

Balázs Gábor Lehócz, Eszközmenedzsment Igazgatóság Elnöke, MET Csoport

István Pócs, Chief Business Development Officer, PANNON Green Power Kft.

Zoltán Vígh, Managing Director, Jedlik Ányos Klaszter

15:40 - 16:10 Closing coffee break
