

Portfolio Construction Industry 2025 program

Registration and Morning Networking

Session I. - What Is the Construction Industry Waiting For?

After the booming years, unfortunately, the period of lean years has returned for the domestic construction industry, with fewer orders, investments, and constructions. But what can and must the most educated, professional, and ambitious players in the sector do to successfully navigate the tougher years and ensure that, when the next period of growth arrives, they are not struggling but are stronger and ready at the starting line? Efficiency in all aspects! But how?

08:55 - 09:00 The Leaders and Decision-Makers of the Hungarian Construction Industry Are United for the Seventh Time

09:00 - 09:25 Is a Shift in State Involvement on the Way?

09:25 - 09:40 A Way Out for the Construction Industry! - There Will Be Projects, but Only for the Best!

09:40 - 09:50 Presentation

09:50 - 10:05 Without the Latest Technological and Digital Solutions, the Industry Will Fail

10:05 - 10:55 Panel Discussion: The Miracle Weapon of Efficiency Has Been Knocking at the Construction Industry's Door for a While Now. It Is Time To Let It In!

AI, Technology, the Future of Construction, Contech, Digitisation, Data Analysis, Prefabrication
